ALUMNI MEETS DEFEAT IN HOT FOUGHT GAME

In a hard fought, cleanly played basketball game at the high school gym the school team eked out victory over the Alumni. With the scoreboard reading 17 to 17 at the expiration of the regular playing time, an extra 3 minutes was necessary to decide the hectic struggle. The margin of victory was a free throw tossed by Capt. Jahrling in the final minutes of

The play was tense and exciting all the way and though marked by me ragged floor work and worse basket shooting by both teams, teams missed enough easy shots to win by a decisive score and each

The curtain-raiser proved to be run away for the lightweights as they trampled the inexperienced Bartlet team to defeat 37-6. In justice to that team may it be said that three of their players were not able to be in the line-up.

As We Turn the Page to 1927

We find spread before us a page, unblemished by a wrong deed or thought, free from any touch of that which is unfair or untrue to friendship for our fellowmen, but with space unlimited to record the good deeds, the kind thoughts and the things we may do for the betterment of mankind. With the keenest desire and most sincere resolve to do our utmost, individually, to make our record on this new page during 1927, as nearly perfect as possible, we wish you each and all a

A Happy New Year!

To Get the Most Out of Life You Must Help the Other Fellow to Live

IF you would grow and prosper, a definite part of your efforts must be expended in making this community a better place in which to live. One way in which to help your community is to "Trade At Home." Then, and only then, will the community life be able to hold the young folks here, and attract from the outside desired industries and people, thus placing us on a basis of sound prosperity and growth. We are ready to help and solicit your co-operation.

SEASON'S GREETINGS

Good tidings of great joy
To you may New Year's Day impart
And may each day, the New Year through
Find goodness in your heart.

lests show startling facts about your house!

Heat and cold leak through supposedly wellbuilt roofs at a terrific rate: End this discomfort and waste by lining your attic with Celotex. It will save in fuel money more than it costs.

CIENCE has made important discoveries about the usual building materials! Accurate tests prove that wood, brick, plaster, wallboards, shingles, roofing materials, etc., when used alone offer too little resistance to the passage of heat and cold.

Solid construction is not enough. A special heat-stopping, or insulating material is needed. Now, this protection is available for every home, new or old. Celotex Insulating Lumber stops this waste at a big saving in fuel cost.

Already more than 90,000 new homes have been built with Celotex. These homes are winter-warm, summer-cool, strong and about 1/3 more economical to heat.

INE YOUR attic with La Celotex. Evenifyour home was built before Celotex was available, you can still enjoy many of these advantages by lining your attic with this amazing

While attic lining cannot effect

the same results as complete house insulation, it gives protection where it is most needed. The roof is the most exposed, yet the thinnest and least protected part of your house. Also, because heated air rises, more than 60% of the avoidable heat-

leakage in an uninsulated house is through the roof.

CAVES MORE than it cests. Lining your attic with Celotex is not a big job or an expensive job. You simply nail the bread, light boards right to the studding and rafters. Enough Celotex to line your attic will cost you very little. And Celotex will more than pay for its cost in the fuel money it saves.

Let us tell you more about Celatex whether you are living in a home already built or planning a new one. A letter or telephone call will bring you complete facts.

DOOM TRAIL

Arthur D. Howden Smith Author of PORTO BELLO COLD, Etc.

(@ by Brentano's.) WNU Service THE STORY

CHAPTER I.—Harry Ormered, prescribed traiter to King George as a Stuart partisan, returning from France to Lendon, rescues Alderman Robert Juggins from a band of assassins. Juggins proves to be the grandson of a former steward of Ormerod's father, to whom Jug-gins feels himself indebted. Ormerod tells Juggins he has aban-doned the Stuart cause.

doned the Stuart cause.

CHAPTER II.—Juggins tells ormerod of a Jacobite plot in the American colonies to weaken England by forwarding French interests. Their aim is the return of King James to the English throne. At its head is one Andrew Murray, a Scatterian and a Frenchman De At its head is one Andrew Murray, a Scotsman, and a Frenchman, De Veulle, deadly enemy of Ormerod. The two are in London furthering their schemes. Ormerod sees them. Anticipating the plotters' early return to America, Juggins arranges for Ormerod to go there with letters to Governor Burnet, a friend of Juggins, and work to foil Murray. CHAPTER III.—Disguised as Juggins' servant, Ormerod takes passage to America. He meets a Scottish girl, daughter of Murray, an ardent Jacobite. De Veulle recognizes him, and their ehmity flames. The Frenchman denounces Ormerod to the girl as a traiter to the Stuart

the girl as a traitor to the Stuart cause. Believing him, she repulses Ormerod's proffer of friendship. He is thrown into the sea by an unseen

assaliant.

CHAPTER IV.—Ormerod, regaining the deck, has recognized his assaliant as Murray's servant, Tem, glant negro. He accuses Murray of employing the negro to assassinate him, but a truce is arranged. At New York Ormerod saves an Indian from insult. The Indian, who speaks English, is Ta-wan-ne-ars,

man seeks revenge. Ta-wan-ne-ars saves Ormered's life in an attack on bim by Murray's henchman, Bolling.
CHAPTER VI.—Accusing Murray,
without avail, of inciting Belling,
Ormerod learns the girl's name is

From a little village that was when we had passed the Gen-nishe-yo and the belt of forest be-De-o-nun-da-ga-a, it was to find ourselves expected guests. DuPage Protective Association Holds a

The Fourth Annual meeting of

Several members present voiced property and fields against trespassers, and in the protection of game about the country from the think they should be. Bensenville rector there felt that there would the construction of a cast iron wawill be the most excellent place to be nothing for the association to

ciation througout the year, that ings for the purpose of fire prospecial deputies be arranged for during the open season for game the inhabitants of the Village of and fowl in the autumn.

It is difficult indeed for the uninitiated to realize how hard boiled the characters are who come out from the city with utter disregard of all laws on the statute books as to trespassing or hunting, and brazenly tell the farmers who may have reminded them that they are trespassing, or that they are violating the law, to go to the hot place, or to go back to the house, or they will shoot them, or something of that kind. Just such illustrations could be found time and again in DuPage County and it seems high time that this situation was being done away with.

The LAMPS You Use Should "Fit" Your Lighting Circuit

THE question of "fit" in lamps is important. To insure 100% lighting value for your money, the lamp must be designed for the same voltage as the lighting circuit in your home. For example, a lamp only half strong enough for your cir-

cuit, will burn out in forty minutes. A lamp twice as strong

· as your circuit requires might last many years but would give you only a fourth of the light you should have. The "Lamp Exchange Service" of this Company is maintained to furnish tested high-efficiency lamps, so that its

customers may obtain the full benefit of your electric service. A lamp display in our store shows conveniently the many sizes, shapes and colors available for your use. Call in and see it,
